

# Screen and Stage

ATTRACTIONS AT JANESVILLE THEATRE FOR THE COMING WEEK.

**BEVERLY.**  
Sunday through Wednesday—"Sonny," Richard Barthelmess.  
Thursday through Saturday—"I Am the Law," Alice Lake and others.  
**MYSTIC.**  
Monday through Thursday—"If You Believe It, It's So," Thomas Meighan.  
Friday through Sunday—"The Loves of Pharaoh," foreign picture.  
**APOLLO.**  
Monday through Thursday—"Molly O," Mabel Normand.  
Friday through Sunday—"Special feature and vaudeville."  
Saturday and Sunday—"Vaudeville and comedies."

**AT THE BEVERLY.**  
"Sonny" is the latest production of Richard Barthelmess, and anyone who saw the excellent acting of this star in "Soluble David" will want to see "Sonny" in which he plays an entirely different part, yet does so with a versatility that leaves one bewildered as to which character is the best.  
The case of the missing soldier whose identity becomes merged in

Richard Barthelmess in "Sonny"

that of another man strongly resembling him, becomes a familiar screen theme ever since the great war began and ended. Just never has the idea been so cleverly handled and presented on the silver screen as it is in "Sonny." This picture is undoubtedly another big triumph for the star.

Richard Barthelmess, whose sympathetic and charmingly natural way in the dual role assured him dominion over the audience, will be here for the matinee only, and a crowded house is expected.

part, Henry Heikick is also seen. Other names would not be familiar to American audiences.

While many inferior European pictures have been seen in America, and in Janesville recently, this one can be said to differ from them.

Interest is now centering around the first big stage attraction of the year here—the appearance October 27 of Souther and his band.

Another "Mickey" That is what is claimed for "Molly O" to be seen at the Apollo next week, and it might also be called another and modern

JOHN PHILIP SOUSA Coming to Janesville.

Clintella, for the story of Molly O compares in many places with that of the poor girl of the chimney corner. Mabel Normand achieves one of her greatest successes in "Molly O." Those who saw in her in "Alice" a few years ago still remember her characterization in that. Her powers of impersonation are not to be brought out effectively more strongly and more advantageously in "Molly O." The story is simple

Thomas Meighan and Pauline Starke in a scene from the Paramount Picture, "If You Believe It, It's So."

others in importance, so that it would be unfair to condemn this part of the picture.

The cast is one of the principal reasons why the picture is entertaining. Alice Lake, Kenneth Harlan, Gaston Albee, Rosemary Thayer, Noah Berry and Wallace Reed are among the important parts. Harlan, as the brother, is very strong, and Gaston as the other brother, is equally impressive. Alice Lake, as the girl, is a huge success because of her sincerity and sincerity.

**AT THE MYSTIC.**  
The star of "Soluble David," and "Our Lady of the Desert," Thomas Meighan, again has a role similar to that which made him famous in "The Law." He is seen in "If You Believe It, It's So," to be seen at the My

theater the first of the week, this popular star plays the part of a city crook who reforms when he comes in contact with wholesome and good life. The opening of the picture shows him robbing a farmer of a huge sum as he comes to the city. Then, in a man, he takes the kindly face of this to a small town to live, where he becomes the plant of another crook, becomes the town hero, and falls in love.

An excellent cast supports Mr. Meighan. As the leading lady is Pauline Starke, late of "My Wild Irish Boy," and does excellent acting. Then another big attraction for the picture will be the appearance of Theodora Roberts. Although she has

## Easy Lessons in Auction Bridge

Copyright 1922 by Hoyte, Jr.

**ARTICLE NO. 1**  
**Introduction**  
The purpose of this particular series of articles is to give a short summary of the game of Auction Bridge, so that even a beginner can acquire sufficient knowledge of the game to play it with confidence and to enable him to play a creditable game. The best way to acquire the knowledge of the rules necessary for the beginner is to study the first 31 rules of the game of Auction of the White Book of New York, which are to be found in any standard book on Auction. In case such a book is not available, read carefully this

summary of the game of Auction Bridge, as played by four people, requiring two packs of cards with different backs. Jokers are not used. One pack is shuffled and spread face down on a table, so that players may draw for partners. The players drawing the two lowest cards play against holders of the two highest. Ace is low in cutting, and in case of duplicate draws, Spades have preference over Hearts, then Diamonds and Clubs. Holder of lowest card chooses his seat at table, and one pack of cards, holder of third lowest takes his choice of opponents' suits. He then deals clockwise to dealer's left, shuffles dealer's cards, which are cut by person at dealer's right. Dealer's partner shuffles the "still" deck and places it on his right, ready for second hand to use for next deal. After this shuffling of the still deck always is done by partner of current dealer, while deal is going on.

Each trick over 6, 4, 3, 2, 1 honors (simple) 12, 10, 8, 6, 4, 2, 1. 4 honors 24, 22, 20, 18, 16, 14, 12, 10, 8, 6, 4, 2, 1. 6 in one hand 54, 52, 50, 48, 46, 44, 42, 40, 38, 36, 34, 32, 30, 28, 26, 24, 22, 20, 18, 16, 14, 12, 10, 8, 6, 4, 2, 1. In partner's 54, 52, 50, 48, 46, 44, 42, 40, 38, 36, 34, 32, 30, 28, 26, 24, 22, 20, 18, 16, 14, 12, 10, 8, 6, 4, 2, 1. 5 in one hand 54, 52, 50, 48, 46, 44, 42, 40, 38, 36, 34, 32, 30, 28, 26, 24, 22, 20, 18, 16, 14, 12, 10, 8, 6, 4, 2, 1. Doubling these trick (not honor) values, redoubling multiplies them by four. Thirty points constitute a game, but all over 30 are scored. Excess points on one game can not be counted on next. Partners winning two games complete a rubber.

For winning 12 tricks, or Little Slam, there is a bonus of 50 honor points for Grand Slam, or 12 tricks, 100 points.

Declarer also gets a bonus of 50 honor points if he makes a doubled contract, plus a bonus of 50 points for each trick taken above his contract. If declarer redoubles, these bonuses are 100 each.

When opponents "set" the declarer, the opponents score 40 honor points for each trick by which declarer fails short of his contract; 100 for each trick if bid has been doubled; 200 if redoubled.

If declarer fulfills his contract, he scores for every trick he takes in excess of his bid; if he does not make

## MAJESTIC THEATRE

**"THE HOUR OF DOOM"**

**"CHUMS"**  
Century Comedy.  
A Spirited Affair Comedy.  
Also Weekly  
Mat. 2:30. Eve. 6:30.  
Children 10c. Adults 20c.

**SUNDAY**  
**HERBERT RAWLINSON**  
-IN-  
**"THE BLACK BAG"**  
Don't tell a man the girl he loves is a thief. Herbert Rawlinson in "The Black Bag" wouldn't have it. Would you?  
Also Comedy.  
Mat. 2:30. Eve. 6:30.  
Children 10c. Adults 20c.

amount bid, he can score only his honors as bid. When contract is defeated nothing is scored below the line.

Penalty for a revoke by declarer is 50 in honor points, which opponents score above the line. When the opponents revoke, declarer may take 50 honor points or 2 of opponents' tricks for first revoke; each additional revoke by opponents entitles declarer to 50 honor points. Declarer can use trick taken on a revoke to make good his contract, but cannot use them to obtain additional bonus in his honor score by reason of the revoke having been doubled or redoubled; nor can he use them to count Slam or Little Slam not otherwise obtained. A revoking side can score only honors as bid.

Winners of two games in trick points receive 250 points bonus in honor.

**Winning Rubber:** At the end of a rubber, the complete score of each side, including the 250 won by one set of partners for winning two games, is totaled, and the side with the greatest complete total of points wins the rubber.

**CALVINVILLE CENTRAL.**  
Calvinville Center, Mrs. Alice Fay Rotz left Saturday for her home in Des Moines, Ia., after two weeks' visit at the home of her aunt, Mrs. Olive Farn, Adelbert, Townsend, Janesville, was a guest at the Dell Town-ship, where she was a member of the Little Star club. She is now at the home of her aunt, Mrs. Olive Farn, Adelbert, Townsend, Janesville, where she is a member of the Little Star club. She is now at the home of her aunt, Mrs. Olive Farn, Adelbert, Townsend, Janesville, where she is a member of the Little Star club.

**BRODHEAD**

## "SONNY"

His first big new production since "Soluble David" and a production that approaches every respect the star's remarkable work in that picture and "Vary Down E. L. Hart" "Sonny" will linger in your memory forever. It will leave you both glad and sad and many times a knapper for having seen it. A sublime story of love and devotion that lived through every adversity.

MATINEES, 10c-25c. ALSO TWO ACT COMEDY. EVENINGS, 15c-35c.

May  
ket Meet  
New Zones

Janesville will un-  
one of the new dis-  
the proposed is zone

man for high school basketball in  
Wisconsin. This was brought out  
here Friday at a joint meeting be-  
tween the board of control of the  
Wisconsin Interscholastic Athletic  
association and the athletic offi-  
cers of the nine normal schools of  
the state.

Approval of the addition of six  
districts in which to hold basket-  
ball meets was given by the normal  
schools. No agreement on the

management of the new sections  
has been reached.

While all the new districts are  
not named, it is known that the  
new plan will affect Whitewater  
and Oshkosh normals by cutting  
down the number of schools play-  
ing there.

The question of athletic eligibil-  
ity at normal schools was being  
taken up Saturday.

## Evansville

Mrs. E. F. Miller, Phone 300-2.  
Correspondent.

Evansville—Mrs. E. M. Fairbanks,  
who is spending a few days at the  
home of her daughter, Mrs. Chester  
Morgan, at Brooklyn, fell down the  
cellar steps Thursday and dislocated  
her left elbow. Her son-in-law, Mr.  
Morgan, brought her here Friday  
for an X-ray examination. She re-  
turned to Brooklyn to remain for a  
few weeks with her daughter.

Mrs. W. R. Webb, Spencer, Ia., is  
visiting her sisters, Mrs. George  
Thurman and Mrs. Rasmus Anderson,  
Mr. and Mrs. A. D. Ballard and  
played Ballard and family attended  
the fair at Beaver Dam Friday.

Programs for the afternoon club  
for the coming year are ready at the  
library where members may get  
them by asking Miss Mae Phillips.

Mrs. Stella Conradson is visiting  
relatives in South Dakota.

Mrs. Bert Wilhelm is in Dixon, Ill.,  
where she was called by the death  
of her father.

Carl Moran Chicago, is visiting his  
parents here.

Mrs. Willie Decker and son and Mrs.  
Leslie Miller who have been visiting  
relatives in Stoughton, have return-  
ed.

Mrs. William Stewart and Miss  
Alice Stewart went to Jefferson Fri-  
day to stay over Sunday with rela-  
tives.

Miss Violet Harper and Miss Norma  
Gibson, spent Thursday at the home

of the former's parents Mr. and Mrs.  
J. A. Harper.

Mrs. Mary Hawley, who spent sev-  
eral days with Mrs. H. I. Brink and  
other friends, returned Thursday to  
her home in Arny.

FOR RENT or Sale, 5 room house,  
partly modern. Just painted. 100  
2nd St., Evansville. Possession given  
after Sept. 8. Write Mary J. Earle,  
Gen. Del., Evansville.

Adv.—  
Mrs. M. L. Ransom New York city,  
is a guest at the G. L. Pullen home.

Herbert Antes Sawyer, is visiting  
his uncles, R. M. Antes and G. L. Pul-  
len.

Mr. and Mrs. Lewis Spencer who  
spend the summer at the home of his  
daughter in Colorado, have arrived  
in Chicago to visit their daughter,  
Mrs. Frank Frost before returning  
home.

Mrs. Bert Bullard entertained  
Thursday Mrs. W. R. Webb, Spencer,  
Ia., and Mrs. Clarence Franklin, Cin-  
cinn.

Mr. and Mrs. A. C. Holmes enter-  
tained the Bridge club Thursday  
night.

Rouben Halgeson and family will  
move Monday from the Stella Con-  
radson house on Church street to the  
Main street house which will be vac-  
ated by Mr. and Mrs. Ervin Cox.

Mrs. W. H. Gates, Milton Junction,  
spent Thursday and Friday with the  
Rev. and Mrs. A. W. Stephens.

Charles D. Hodge, after visiting at  
the home of Mr. and Mrs. N. T. Slaw-  
son, left Wednesday for his home in  
Mosk, Ida. Enroute he will visit  
friends in Chicago.

The Pythian Sisters will hold their  
first meeting for the year Tuesday  
night, Oct. 3. All officers and mem-  
bers are requested to be present.

The Misses Charlotte Colony and

## OBITUARY

Samuel Hammell

Samuel M. Hammell, 61, Turtle  
township farmer, died at his home  
on the Milwaukee road at 5 p. m.  
Friday. He was born in Vanhauy  
county, Pa., Sept. 27, 1861, and  
came to Footville with his parents  
when six years old. He lived the  
greater part of his life in Beloit  
and vicinity. He is survived by his  
wife and three children, George,  
Roy and Robert, two grand chil-  
dren and two brothers, John, Elfr,  
Colo., and James, Orfordville. Fu-  
neral services will be held at 2:30  
p. m. Sunday at the home. Inter-  
ment will be in Beloit cemetery.

Mary Daird came home from White-  
water to attend the school reception  
Friday night.

Wesley James went to Janesville  
Friday for a short visit with his  
brother, Edward James, Martin, S. D.,  
who was making a business trip in  
Wisconsin.

**Bowlers Elect  
Judge Fifield  
to Head J. B. A.**

Judge Charles L. Fifield, presi-  
dent of the Rotary club, was elect-  
ed president of the Janesville Bow-  
ling association at the annual meet-  
ing of that organization held at  
city hall Friday night. A commit-  
tee consisting of Henry Solomon,  
Dr. P. Richards and Frank Sin-  
clair, the retiring president, was  
appointed to notify Judge Fifield of  
his selection.

Other officers chosen were  
Charles Bouton, vice-president; Dr.  
P. Richards, treasurer; and Wil-  
liam McCus, treasurer.

The dues for the coming season  
were fixed again at 50 cents. The  
secretary was instructed to issue  
membership cards.

Oscar N. Nelson, manager of the  
Chamber of Commerce, pledged the  
entire cooperation of his organiza-  
tion to boost bowling. A vote of  
thanks was extended to the retir-  
ing officers.

**Liability Cases  
Heard by State  
Industrial Com'n**

L. A. Turrell and others repre-  
senting the state industrial com-  
mission have returned to Madison  
after hearing testimony at the city  
hall Thursday and Friday on com-  
pensation cases.

Among the cases was that of J.  
M. Bostwick and Sons against the  
General Accident Insurance com-  
pany to secure \$100 for treatment  
of Miss Katherine Shields, Miss  
Shields was injured Feb. 4, 1922,  
while on a business trip for the  
firm in New York city. She took  
ten treatments of an osteopath, at  
\$10 per treatment. The insurance  
company thought the price exces-  
sive but after hearing the facts of  
the case, seemed less opposed to  
granting the compensation. No de-  
cision was made.

Prize cases were headed by  
that of Eli Young against Charles  
Andre, both of Delavan. It was a  
case of denied liability. Clifford  
Shook the Wisconsin National  
Guard asked compensation for  
injuries received while killed by a  
horse of the cavalry company of  
Port Adkinson.

George Olson asked for compen-  
sation from the Wisconsin State  
Soldier for the Blind. He was in-  
jured when he fell from the seat  
folding while at work at the school.  
Decision of some of these cases  
will be rendered next week.

**JEFFERSON**

Jefferson—Arthur Olson and his  
pal, Cambridge, appeared before Jus-  
tice of the Peace, Chas. A. Buss, here  
Friday morning for a hearing on a  
charge of being drunk and disorder-  
ly. They were released upon the pay-  
ment of a fine of \$5 and costs.

Work was resumed Friday morning  
on the paving of highway No. 107  
west of Jefferson on the two mile  
stretch from the city limits of Jeff-  
erson and connecting to concrete road  
previously laid. Joe Connell, the con-  
tractor, said that he intended to pave  
700 feet Friday and that the mile and  
a half stretch would be completed in  
about 10 days. Work on this road had  
been delayed for three weeks on ac-  
count of a cement shortage but a ton  
carload shipment arrived here Friday.  
After the Highway 107 is completed  
Connell will complete the paving of  
Highway 26 from Ebenezer to the  
city of Watertown. Connell has paved  
ten and a half miles this summer.

Friends gave a surprise party  
Thursday night in honor of Mr. and  
Mrs. Arthur Rathjen at her home.  
The evening was spent in playing  
Five Hundred. At 12 o'clock lunch-  
con was served. The following guests  
were present: Messrs. and Mesdames  
Gerald Barlow, J. Earl Noble, R. J.  
Fellman, John Andre, Honey Holz,  
Frank Mathe, Fred Bisset, Roy Much,  
John Hennen and Henry Langer.

**ALL STARS JOURNEY  
TO CENTER JOURNEY**

A newly organized baseball team,  
the All Stars of Janesville, manag-  
ed by Louis Drummond, will jour-  
ney to Center Sunday. The lineup  
includes R. Leary, c; C. Hager, p;  
P. Hill, ss; C. Bick, 1b; O. Schmidt,  
2b; Pemberton, 3b; M. Dawson, lf;  
D. Dawson, cf; G. Berger, rf.

This excellent dinner is only 50c. Costs less than eating  
at home and nothing to worry about.

**PARK INN**  
512 E. Main St.  
Osterman & Divan, Props.

## INJUNCTION HOLDS MAIN INTEREST OF ILLINOIS PUBLIC

(Continued from Page 1.)

Injunction should fail to stand the  
test of the higher judiciary, it will  
serve as a basis for action by con-  
gress or the states. In other words,  
public sentiment against strikes on  
public utilities and in the industries  
which control the necessities of life  
is rapidly crystallizing and must be  
backed with in politics.

**Support the Bonus**  
There is no question but that the  
Harding Administration has been im-  
measurably strengthened among its  
own supporters by President Har-  
ding's veto of the bonus and the  
Daugherty injunction. The business  
men who contribute heavily to the  
support of the republican party from  
year to year have always felt that  
the Wilson Administration catered to  
labor and that its successor must in-  
itiate a measure to do the reverse. It was,  
therefore, with considerable disap-  
pointment that the proposal of Presi-  
dent Harding to restore seniority  
to the veterans was received.

Some business men went so far as  
to say that the proposal was a surren-  
der "like the Adamson Act." Busi-  
ness men became critical of the ad-  
ministration and its policy in the in-  
junction and the veto of the bonus  
turned the tide. Reports received  
by republican chiefs from all  
parts of the country show that Mr.  
Harding's veto of the Daugherty in-  
junction has won the political stock a  
good deal by the position he has lat-  
terly adopted.

**Antagonism of Labor**  
What Mr. Harding gains, however,  
among the business men is to some  
extent offset by the antagonism he  
has created on the labor side. The  
injunction fight is by no means over.  
The fight will be carried to the Su-  
preme Court of the United States.  
Attorney General Daugherty told the  
writers that he welcomed a thorough  
trial of the injunction. The danger is,  
of course, based upon the famous  
anti-trust law of 1890 which makes  
it unlawful to restrain trade. One  
of the chief points brought out by  
the critics is to the durability of the  
injunction as a legal proposition is  
the contention that the acts complai-  
ed of by the Department of Justice  
are not federal but state offenses and  
that a conspiracy to violate state  
laws is not sufficient ground for fed-  
eral injunctions.

**Injunction to Decide**  
So the chances are when the in-  
junction is finally passed upon it will  
furnish a test on the broad principle  
of whether any act may be consid-  
ered which is in itself lawful—such as  
a meeting or the taking of a strike  
vote—if such an act results in the  
restraint of trade or the interruption  
of commerce. The brotherhood of lo-  
cative engineers, trainmen and  
conductors, who were not a party to  
the rail strike are up in arms about  
it. They are gathering here the best  
legal talent available to them to fight  
the injunction. They insist that as  
it stands the injunction is in order a  
strike and that it was never the in-  
tent of congress to permit such a  
prohibition to be derived from the  
act of 1890 or subsequent statutes.

**Continuation to Follow**  
One thing is certain if the higher  
courts reverse the Daugherty in-  
junction, a movement will begin for  
the enactment of legislation just as dra-  
matic as the injunction may be a bitter  
pill to swallow and from the labor  
viewpoint may contain many in-  
justices but like all things that go  
extremes, it is the result of a dis-  
turbed and to some extent embittered  
public opinion which sees two sides  
contending perennially while the  
public suffers and pays the bill.  
There is some regret here that the  
administration did not see fit to in-  
quire more closely into those acts of  
the rail and executive which in a  
broad way have contributed to the  
dissatisfaction among the workers  
and led indirectly, if not directly, to  
the strikes. To retain public confi-  
dence some steps that will be con-  
vincing of the government's impar-  
tiality as between the factions are  
again and again pointed out as in-  
evitable. Naturally the government  
is trying its hand and experimenting  
and the degree is not broken down  
by legal action higher up unless  
possibly the same method will be  
used to prevent lockouts.

## MEMBER OF THE ASSOCIATED PRESS.

The Associated Press is exclusively entitled to the use for republication of all news and information of any kind or of any nature published herein.

The Gazette prints freely of events when they are news. The following items are chargeable at the rate of 25 cents a count line, average 5 words to the line: Obituaries; Cards of Thanks; Notices of any kind where a charge is made to the public.

## THE GAZETTE'S PLATFORM

Send every energy to finish the high school building so it may be used before the end of 1922. With the completion, the problem of a community center will be solved.  
Janesville needs and should have ample hotel facilities to care for the public. That will be especially true when the high school is completed and the university is available for the summer months.  
Finish the paving of Janesville streets as soon as there can be a net to place a heavy burden on the people.  
Give the city a park. There is now available \$10,000 for the purpose and it should not be used for any other. Finish the city and zoning plans.  
Maintain the building for World war soldiers, the living and the dead to be also an historical building.

## THE MAKING OF AN AMERICAN

America stretched out her hands for many years and said to all the oppressed, circumscribed and hopeful people of Europe that here was asylum as well as a new nation with a warm welcome and opportunity unlimited. Into this they might come, acquire the language, habits and routine of life, be sovereign citizens, enjoy the blessings of freedom of worship, the right of property, participation in public affairs and become fully assimilated with the republic. The inspiration to become all this and more did not come after landing here but was inculcated while still the immigrant was a subject of some monarch across the water. These men and women came seeking citizenship. It was not hard for them to be melted into the great body politic. But of late quite a different thing has been the rule. Most of the immigration has been of a class whose inspiration was in no way connected with anything we had here save and except an opportunity to earn a living and instead of assimilation, a segregation of races, isolation of language and peoples followed. We have built up foreign sections, blocs of Europe, usually of the lowest order and here we have had breeding places of discontent among workmen, anarchy and communism has been taught, lawlessness has been frequent, and each has become a dangerous foe of this government. We have failed to do our duty. We have been cowardly in not suppressing foreign language publications and making it necessary for the immigrant to understand our own language and we have been slow to visualize the need of teaching in the language of America. We have overlooked the establishment of compulsory naturalization schools, of giving attention to these people and instead have let them shift for themselves in our self-centered neglect of alien additions to population. Gradually therefore in the place of becoming Americanized, the American people have been slowly deteriorating to the point where acceptance of the lower order of living, of thought and of attitude to government as interpreted by ignorant or vicious immigrants, has become marked.

Here is the danger in America. Instead of making Americans we are making a hybrid citizen, ring streaked and speckled with a composite of a hundred brands of European degeneracy. The first place to start Americanization is in the home of the immigrant. The second place is when he reaches America to see that he is given more attention than merely that which comes from the gate tender opening the passage for him at Ellis Island. Until we do we shall never be able to accomplish anything in an Americanization program.

Kemal says he knows nothing about a neutral zone and a murder.

## HENRY JOHNSON

Henry Johnson has sent a letter to newspapers stating that he will not be an independent candidate for the office which he has so faithfully and efficiently filled for many years. He will go back to the farm in Oconto county—the farm he grabbed out of a wilderness and made worth while—and become a private citizen. Henry Johnson will be a good citizen in private life, as good a citizen as he has been a state treasurer. The aspirations cast by his opponent in the political race this summer were both unjust and uncalled for. They failed to register for but for the general landslide Mr. Johnson would have been returned again to the office. If the successor gives the state as good an administration as Mr. Johnson, the people will ask for nothing better.

It's perfectly natural that Turkey should want to gobble up some more territory.

## OUT OF A CLEAR SKY.

It has come to be so often stated that labor and labor unions are opposed to prohibition all the way from top to bottom that it has been accepted without deep examination as a general thing. However the association against the prohibition amendment received a severe jolt from a bolt out of what must to them have looked like a clear sky. They sent a questionnaire to labor bodies asking about prohibition. The Union Labor Bulletin of Newark, N. J., replied and this was what the questionnaire carried:

- "1. We favor prohibition."
- "2. We do not favor interference with the Eighteenth Amendment, nor its repeal."
- "3. We favor absolute prohibition of the saloon where it may serve to prostitute the morals of the region to which it caters."
- "4. We condemn the sale of light wines or beers with meals in restaurants or hotels."
- "5. We disapprove of the sale of light wines or beers for consumption anywhere."
- "6. Our employees have increased their effi-

## Secret Agents in Washington

By FREDERIC J. HASKIN

Washington, D. C.—The newly devised American budget system is facing a crisis which will determine whether or not our form of government is adaptable to this method of scientific finance. For many years the congress has been besieged with proposals to enact a budget system as a means of instituting economies and placing receipts and expenditures of the treasury in such a form that uncertainty would be taken out of the government fiscal operations. Such a system was instituted something over a year ago and has been in operation.

General Charles G. Dawes was the first Director General of the Budget. With characteristic vigor he effected economies in operation of the vast government machine, cutting out duplications and saving waste in scores of ways. It is difficult to determine what is saved in governmental operations because what might have been spent is so vaguely potential a quantity that it is not readily susceptible of reduction to figures. It is generally admitted, however, that General Dawes' administration of the budget cut down waste and extravagance to the extent of many millions of dollars.

On the first of July General Dawes turned the Bureau of the Budget over to General H. M. Lord. General Lord is a man of equal if not greater vigor. He has found some fault with details of his predecessor's administration and hopes to make even greater savings. He has intimated that while much has been done in the way of economy, the big task of holding the expenses down lies still ahead of the Bureau of Budget.

Recently the several executive departments, boards, bureaus, and commissions submitted to the bureau estimates of appropriations for the coming year. These figures were largely in excess of what the director of the budget thinks safely can be allowed if a balance is to be maintained between receipts and expenditures. The estimates have been sent back for revision and a maximum figure quoted to each department within which its estimates must stay.

The budget director is proving obdurate. He will not relent and give the various department heads larger allowances. Every executive in the government has put schemes requiring appropriations and they all fight equally hard for them. The director of the budget looks the income of the government squarely in the face and if the estimates of appropriations exceed the income, he says "No" very decisively.

The next step of the offended department executive is to go straight to congress. The budget bureau will not allow him funds to carry on important agricultural experiments, for instance. He interests some members of congress and gets special bills introduced appropriating the desired sums. This procedure is followed all down the line.

This is where the crisis appears. The bureau of the budget puts its O.K. on the restored, regular items for maintenance and operation. These expenses are calculated to take up the whole income of the government. Then comes these department appropriation bills, with long and often convincing arguments in their favor, calling for millions of dollars in addition.

Will congress hold the expenses down to the budget estimates or will it pass the extra appropriation bills? If the appropriations are confined to the budget, the budget system wins. If the extra appropriation bills are passed, the budget system is practically scrapped because its effectiveness is rendered void.

The question will be threshed out in congress at the session this winter and it is expected there will be fireworks in the process. The president strongly upholds the budget system and has declared unequivocally that appropriations of money must not exceed the government income.

The president takes the same view and will insist that the American government sink to have a surplus of revenue rather than an excess of expenditures. Meanwhile's analysis related to the affairs of an individual family but the case is not greatly altered when nations are concerned.

A nation's expenses to exceed its income means it must run in debt and borrow, paying interest. For a government to spend more than its income means the same thing. There is not the element of personal misery which Mearns speaks of, but there is substantial national embarrassment which may result in personal misery for many of the unfortunates of the nation.

Practically the sole trouble with the European nations which now are having such grave financial difficulties is that they went on a war spree and spent vastly more than their income. That is the case with Germany, with France, with Italy, with Poland and, in a lesser degree with England. They spent more than their incomes and now they must borrow. Their currencies have depreciated because they have not kept their budgets balanced. This has resulted in loss of trade and in ruinous prices for the necessities of life. They represent instances in which the unthrifty policy against which Mearns uttered his warnings have caused personal misery to thousands.

There is something to be said on the other side of the case. Many of the separate bills to be introduced will be worthy, in fact most of them will and great difficulty will be experienced in defeating them. Assume that the Department of Agriculture has sent in a budget which exceeds what can be allowed if expenditures are to stay within income. The budget bureau lops off a few millions. Among the items cut off, let us assume there is an item of \$50,000 for the continuance of an agricultural experiment station. At this station, the department has been working for grading and soil experiments relating to the cotton boll weevil. Five years are required to carry the work to a conclusion. The completed work may reveal scientific facts worth millions to the cotton growing industry. The work has been going on for three years. If it is stopped now through lack of appropriation, all that three years' work is lost for the experiments must be continuous and there is a possible potential loss of vastly more than the work will cost. Yet the figures show plainly that there is not enough money to go around. The work must stop.

There are instances in which substantial losses have been sustained by the government in this manner. Government work is in process and specially made, expensive tools have been purchased and special buildings erected. The budget cuts off the next year's appropriation. There is not even enough money appropriated to pay for storing the tools and instruments and maintaining watchmen at the buildings. Tools and instruments are lost or stolen and buildings fall into disrepair. Persons familiar with the government know of these cases and therefore have some sympathy with the extra appropriation bills which seek to evade the budget.

clancy 100 percent because of prohibition.  
"7. We cannot encourage anyone to join your association."

Senator Borah says the international agreements made at Washington were of no consequence and accomplished nothing. He is very wrong. If that disarrangement conference did nothing else it stopped the Japanese war propaganda in the Hearst newspapers. We have heard no more about a war with Japan since.

"Painting done while you sleep." Is the sign J. Frost, Artistic Brush Genius, is hanging out.

The Kansas City Star asks "Do voters prefer bunc?" Look at some of the election returns.

Mrs. Salistad, who is married again, will be relieved to know that a jury has pronounced her first husband dead.

This may be unseasonable weather, but it is also quite satisfactory.

## JUST FOLKS

By EDGAR A. GUEST.

WHEN OCTOBER COMES.  
When old October comes along  
And sets the work all done,  
The children gathered in a throng  
The old folks in the sun  
Just resting up a little while  
And dozing in their chairs,  
The mother with a patient smile,  
Forgetting all her cares  
And grateful to the God above  
That she has lived them through,  
Perhaps he sees a little of  
The tasks we've had to do.

He never knows the April snows  
And rains that battered down  
He never sees the garden rose  
Or tulips in the town.  
He never sees the pansies bloom  
Or hears the robin sing.  
For old October spells the doom  
Of every growing thing.  
He finds the trees complete for him  
To tint with red and gold.  
But never feels the struggles grim  
That come with growing old.

And yet perhaps he understands  
How patiently we've wrought  
And sees our worn and wrinkled hands  
And knows how hard they've fought.  
He never sees us in the fields  
Beneath the burning sun—  
When brush and paint October wields  
The work has all been done;  
And yet, as every maple glows  
With wondrous beauty rare,  
I think perhaps October knows  
How much we've had to bear.

When comes October's angel down  
To summon us away,  
To robe us in his latest gown  
And rest our weary day.  
Although he has not seen us here  
In times of grief and woe,  
Striving and striving year by year,  
I think perhaps he'll know,  
He'll find us with our labors done,  
And with his red and gold  
Will tint the trials, one by one,  
That come with growing old.  
(Copyright, 1922, by Edgar A. Guest)

## ON THE SPUR OF THE MOMENT

By ROY K. MOULTON.

POLITICS.  
I once got into politics.  
When I was quite a lad,  
I think I ran for city clerk,  
My memory is bad.  
I lived then in a little burg.  
My friends they were a host.  
They all knew me and I knew them,  
Yes, I knew them—almost.

And every voter in that town  
Stepped up and shook my hand.  
And made an awful lot of fuss.  
Some of them I still know.  
The other fellow for the job  
They knocked both day and night.  
And up to noon election day  
He was nowhere in sight.

My friends stood by me to a man.  
A fact I'd like to note:  
They all stood by me to a man  
Till it was time to vote.  
But when the final score was told  
There were sixteen for me,  
They told me I was beaten by  
Nine hundred forty-three.

So since that time I've always walked  
Away around the block  
When I've observed a fellow who  
Is hired to boost or knock.  
As to the game of politics,  
I would much rather play  
Draw poker with the cards all marked  
The other fellow's way.

The public is being urged not to waste coal.  
Inasmuch as the public has no coal, it looks as though this advice will be followed.

## Who's Who Today

ARCHBISHOP MICHAEL J. CURLEY.  
"Archbishop need not fear for her future with the men now at the helm."

This is the message brought back from Ireland by Archbishop Curley, referring to William T. Cosgrave and Dick Mulcahy, successors to the late Arthur Griffith and Michael Collins.

The archbishop has just returned from a tour of the United States after an extended tour of Ireland, the land of his birth. "De Valera is the Villa of Ireland," the prelate says. He declares that the people of Ireland are behind the Free State government almost to a man and that De Valera's followers are for the most part poorly informed country lads.

Archbishop Curley was born in Achill, Ireland. He was ordained in 1894. After his ordination he was sent to Florida and his brilliant results in his being made bishop of St. Augustine in 1914, ten years after his ordination.

When Cardinal Gibbons died he was the selection of Benedict XV for the archbishopric of Baltimore. He sailed last July, visiting Rome first and then touring Europe.

## LOOKING BACKWARD

### FORTY YEARS AGO

Sept. 30, 1882.—A large audience was present at the testimonial benefit to Prof. Titcomb last night. The Orpheus club, organized and taught by him, appeared in several numbers while others on the program were Prof. Harry Arnold, Mrs. Conrad and Miss Hattie Donahoe, Mrs. St. John, Mrs. King, Miss Ford, Mendemore Smith, Miss Minerva Guernsey and J. B. Doe, Jr.

### THIRTY YEARS AGO

Sept. 30, 1892.—There is trouble in the Second ward as a contract given by the council meant for Carole Benedict, a girl living on Cornelia street.—M. G. Jeffries is traveling about the country giving political speeches.—Fort Atkinson will send a 10,000 pound cheese to the world's fair.—Another meeting of the Young Men's Republican club will be held Friday night.

### TWENTY YEARS AGO

Sept. 30, 1902.—St. Paul road officials and city authorities are again having trouble, as in building the new depot, they are laying extra tracks, which Engineer Kerch says are on city property.—Annual meeting of the Glaciers will be held here Oct. 1 and 2. Twenty men heard the sermon at the Y. M. C. A. yesterday afternoon. These Sunday programs are popular.

### TEN YEARS AGO

Sept. 30, 1912.—"Officer 668" will play here next Tuesday night. "The Blue Mouse" is playing tomorrow night.—Walter C. Helms, recently appointed to the position of City Solicitor of Weights and Measures, will enter upon his duties at the city hall tomorrow.—Henry Allen, famous Kansas editor, will speak here Friday night, opening the Bull Moose's campaign in the county.

ALWAYS PROTECTED  
When thou passest through the waters, I will be with thee; and through the rivers, they shall not overflow thee; when thou walkest through the fire, thou shalt not be burned; neither shall the flame kindle upon thee.—Isaiah 43:2.

## Personal Health Service

By WILLIAM BRADY, M. D.

Noted Physician and Author

WHEN A BOY IS A Sissy  
My dear Dr. Brady:  
I should like some help in convincing my boy of 17 (he will be 18 in Oct.) that it is injurious for him to smoke. He has not done so until this summer, but up here nearly everybody his own age smokes and a great many of the girls and I think he has an idea he would be a sissy, if he did not. Have you any statistics or pamphlets on this subject and also advice about keeping him clean morally?

His father does not seem to know how to talk to him. Some years ago I gave the boy a book about "What Every Boy Should Know." But he is going away to school this fall and the stories I hear about the girls make me fearful of the temptations he will have to meet.  
We had a niece from... visiting us this summer, and when she saw me reading your articles every night she said that was what her mother did. I was surprised to learn that you are well known so far away.

Yours truly,  
Mrs. S.

This boy is evidently in danger. He has been turned loose in a world infested with a species of parasite which is growing at the very roots of family life. He is passing the summer under the tutelage of the idlers and wastrels of the country, and in the evening company of polished haired but exceedingly sophisticated cigarette smoking women.

To send a boy with undeveloped character away from home for a whole season is a term which is a grave experiment. To send away a boy who hasn't enough moral strength to say "no" when the moral ones "sissy" is simply courting disaster.

There was nothing I could say in reply to this mother's letter, except to tell her she had every reason to be alarmed for the future welfare of her boy. Statistics or pamphlets do no good. The only thing of the cigarette smoking type of youth. He is "wised up" by his biased instructors and you can't blame him "that stuff." If he were honestly so inclined, he would never be, alas—it might be possible to point out to him the fact that cigarette smokers never amount to anything in athletics. If he were sincerely inclined, which the fact because overwork hurts the eyes, you know—it might be possible to show him that cigarette smokers never shine in mental accomplishments.

## ASK US

(Any reader can get the answer to any question by writing the Gazette Information Bureau, c/o The Janesville Daily Gazette, 202-204 E. Milwaukee St., Janesville, Wis.)  
Q. Where is most of the cotton raised?  
A. The Department of agriculture says that the United States produces approximately three-fourths of the world's cotton, India and Egypt being the only other countries whose crop is of much commercial value. China and Russian Turkestan produce considerable cotton, but the crop is consumed almost entirely within the country of production. A little cotton is grown in eastern Brazil, in Peru, in the United States and in the extensive production of cotton is restricted to regions having the average frostless season of 200 days or more, and 55 per cent of the world's crop is grown south of the 37th parallel of latitude.

Q. Does Africa produce twice as much gold as the United States?  
A. E. W.

Q. Africa produces nearly four times as much. According to the last report of the director of the mint in the United States, the country produced 2,476,164 fine ounces of gold, while Africa produced 9,939,288 fine ounces.

Q. Why doesn't it kill a bird to alight on a live wire?  
A. E. R.

A. The biological survey says that small birds, when alighted on a wire, even though it carries a heavy current in electricity. This is because there is not a complete circuit. If a larger bird were to alight on a wire, and its wings touch another wire, it would be apt to cause death. Eagles have often been killed in this way.

Q. How does a German glider rise in the air without a motor?  
A. Z. R. M.

A. The German glider does not differ from other gliders in the means of obtaining support in the air. In all such craft support is received from the action of moving air on the wing surface. The glider, or soaring plane, is given motion relative to the surrounding air, either because of wind currents blowing past the craft, or by causing the glider to prove through the air in a general downward direction from some elevation, such as a hill or a mountain. Airflow may be gained whenever the relative air speed is greater than that necessary to maintain horizontal flight.

Q. What is the circulation of President Harding's newspaper?  
A. W. S. W.

A. The Marion Star has a circulation of 14,221.

Q. What is the derivation of the word saxophone?  
A. S. B.

A. It is named for its inventor, Adolph Sax.

Is Your Child Physically Fit?

If it is your first duty to find out what is the matter with him. Do you know how to proceed to this end?  
Offer your boy the best information in the world in a specially prepared Red Cross Booklet on THE SCHOOL CHILD'S HEALTH.

It is a booklet to test his eyes, his hearing—how to overcome flat feet, to regulate his appetite, how to forestall tuberculosis, what to do when he gets contagious diseases.

Stop right now. Take stock of your child's condition. It is FREE. In filling out the coupon he is sure to write your name and address. Enclose two cents in stamps for return postage.

Frederic J. Haskin, Director, The Janesville Daily Gazette Information Bureau, Washington, D. C.

I enclose herewith two cents in stamps for return postage on a free copy of "The School Child's Health."

The Japanese government has launched a national road building policy that will take 30 years to complete and cost \$135,000,000 in the principal cities alone.

Instead of a clock carter, a clock carter indicates the time in this country.

## Fall Painting Bids For Your Attention

Fall is an excellent time to paint—freedom from rain and dust is a great help in doing a good job. Then it's good economy to protect your property from severe winter weather.

We are as near to you as your telephone. We can assure you with lasting success with "ALL PAINTS."

Carter White Lead, \$12.00 per 100 lbs. Window Glass in all sizes. Picture Framing.

**BLOEDEL & RICE**  
220 W. Milw. St. Phone 42-5

## The Fear of Fire

is inborn in all of us, and for good reason. Fire is the best friend and the worst enemy of man. It is, properly used, a constructive agent of the first order; one it gets beyond control, it is an unconquerable demon of destruction.

Fire-proof roofing on your home will give you a pleasing sense of security and at the same time add to the appearance of the house. Now is the time to have it put on!

## SOLIE LUMBER CO.

"In the heart of the city"  
16 N. RIVER ST. JANESVILLE WIS. Tel. 139

Building Material of all kinds.  
SCHALLER & McKEY LUMBER CO.  
1001 MILWAUKEE STREET

## Regardless of the Strike

which naturally has crippled shipping, we have a full and complete stock of lumber and building material, ready to meet any local demand.

We make it a point to have the things you want; call up and ask for an estimate!

# MARKETS

Complete Daily Report  
Furnished By a Leased  
Associated Press Wire

**PHONE MARKET SERVICE**  
FOR FARMERS.  
Farmers generally interested in any market are invited to use the Gazette's telephone market service. Quotations received by the Gazette will be placed at the disposal of the farmer, and the farmer will be able to get the market for the current day. Markets are coming over the wire at all hours. Do so. We will be pleased to have inquiries. Call for editorial room.

## GRAIN

**Weekly Grain Review.**  
Chicago.—Notwithstanding critical conditions at the Decadent, wheat prices have advanced a week, owing largely to the fact that actual receipts have been cut. Comparing with a week ago, wheat Saturday morning was 1/2 to 1/4c lower, corn down 1/4 to 1/2c, oats 1/4 to 1/2c, and provisions 1/4 to 1/2c higher. The market was active, with a few large transactions.

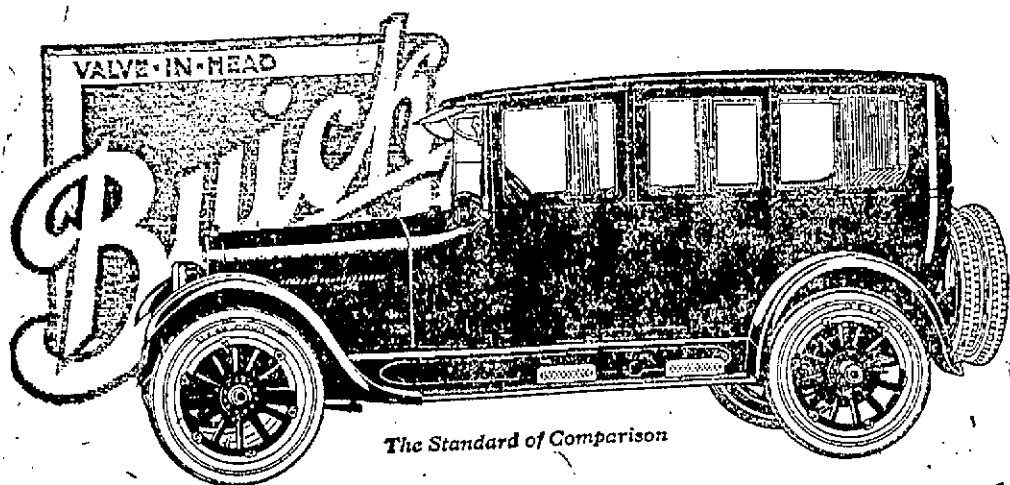

**Chicago.**—Notwithstanding critical conditions at the Decadent, wheat prices have advanced a week, owing largely to the fact that actual receipts have been cut. Comparing with a week ago, wheat Saturday morning was 1/2 to 1/4c lower, corn down 1/4 to 1/2c, oats 1/4 to 1/2c, and provisions 1/4 to 1/2c higher. The market was active, with a few large transactions.

The Standard of Comparison

## Closed Car Luxury Unsurpassed

The 1923 Six Cylinder Seven Passenger Sedan—\$2195

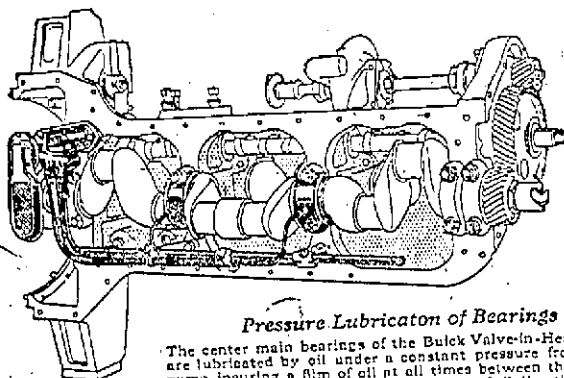

A dignified beauty and richness unexcelled by any closed car mark the new Buick seven passenger sedan. Lengthening the body, lowering the top and raising both hood and radiator have improved the streamline appearance made possible by the long wheel base, and added attractiveness has been given by the handsome nicked drum-type head and cowl lamps.

The roomy Fisher built body is furnished in rich plush. Deep cushioned seats

for five with two comfortable folding chairs accommodate seven grown persons with ample room for everyone. The chassis has been improved materially and its easy riding qualities heightened by a new rear spring suspension. In the famous Buick Valve-in-Head engine, changes also have been made to increase its dependable performance. In every detail of body, chassis and power plant, this Sedan has no superiors among closed cars of even greater price.

### The Buick Line for 1923 Com- prises Fourteen Models:

Four—2 Pass. Roadster, \$865; 5 Pass. Touring, \$895; 3 Pass. Coupe, \$1175; 5 Pass. Sedan, \$1395; 5 Pass. Touring Sedan, \$1325. Sixes—2 Pass. Roadster, \$1175; 5 Pass. Touring, \$1195; 5 Pass. Touring Sedan, \$1335; 5 Pass. Sedan, \$1385; 4 Pass. Coupe, \$1695; 7 Pass. Touring, \$1435; 7 Pass. Sedan, \$2195; Sport Roadster, \$1625; Sport Touring, \$1675. Prices f. o. b. Buick factory. Ask about the G. M. A. C. Purchase Plan, which provides for deferred payments.

Pressure Lubrication of Bearings

The center main bearings of the Buick Valve-in-Head engine are lubricated by oil under a constant pressure from a gear pump, insuring a film of oil at all times between the bearing surfaces. The pump also forces a volume of oil directly into the crank case at each connecting rod pocket making certain perfect lubrication of these bearings also.

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM

## HINTS FOR THE MOTORIST

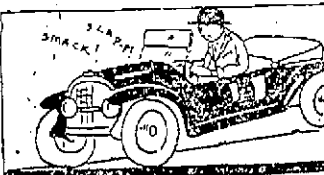

ALBERT L. CLOUGH.

### Soldering Operations

[Not Difficult and Well Worth Knowing About.]

AS A TYPICAL example of an auto soldering job, take the case of a copper carburetor float that has had a pinhole leak located in it and has had a couple of other holes punched in it. Let the gasoline escape. Scrape the metal for some distance around each of the holes with a knife until it is perfectly clean and bright, or produce the same effect with a clean emery cloth. Touch the surface near each hole with a very little non-corrosive soldering paste carried on a match. Set the soldering iron heating, arranging it so that the flame plays on the base of the solder rather than on the point and keep trying it with the stick of solder to see when it reaches the melting temperature. When it begins to fuse the solder, put a little paste on the iron near the point and be sure that its surface is fully tinned over. If it is not, file it clean and coat it with solder. When the iron is at a good melting temperature, but not hot enough to oxidize, wipe it clean on a board, melt a little solder on it and apply the point to the pinhole, moving it about a little and holding it to the metal until a drop of solder has adhered over the hole. Only a little is necessary, if only it sticks, and any excess can be shaved off with a knife.

### CONCERNING PISTON-SLAP

C. W. M. asks: What is piston-slap, what causes it, how can it be prevented and how is it detected? Answer: It is the action of a loose piston—one that does not fit its cylinder bore accurately all around—in violently moving from contact with one side of the cylinder to contact with the other side and the noise which accompanies its forcible contact with the walls of the cylinder. This motion is caused by the force communicated to the piston through the connecting-rod, the reaction of the rod forcing the piston against one wall of the cylinder on the compression and against the other on the power-stroke. Its development can be retarded by maintaining perfect lubrication between the piston and cylinder wall at all times so that wear will be deferred, and its presence can be detected by the peculiar sound that it causes particularly when the engine is given gas suddenly.

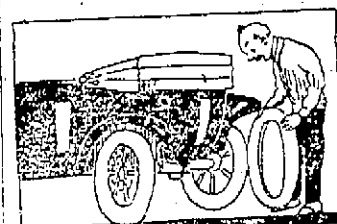

### BATTERY GETS HOT

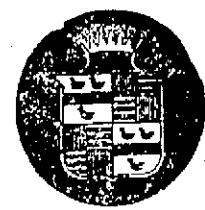

V. E. S. asks: What causes my storage battery to get very hot at times? Does this do any harm and if so, how is it best prevented? Answer: It is partly caused by the battery's continuing to receive current from the generator, after it is already in a fully charged condition. The current passing through an undercharged battery is largely changed into the chemical action

that brings about charging, but that which is sent through a fully charged battery, finds no useful chemical action to perform and is largely changed into heat instead. If a battery is run for long periods at a temperature above 100° F., its life will be considerably shortened. A battery which is particularly exposed to heat from the engine, or is charged at too high an amperage or is constantly charged and called upon for little lighting and starting current, is subject to overheating. Running the lights on long daytime runs or killing the generator during a part of the time tends to prevent overheating, especially if the battery is favorably located on the car.

### INTERCHANGEABLE TIRE SIZES

C. M. asks: Can a 32x4 inch tire be used on a car that is fitted with tires of the 32x4 1/2 inch size? Answer: No. These tires have greater outside diameter, but their inside diameters differ because their cross-sectional diameters differ by one-half inch, the inside diameter of the former being twice one-half or one inch greater than the latter. For this reason the former size of casing would be altogether too large to fit on the 32x4 1/2 rims. The 32x4 1/2 size of which are intended for 32x3 3/4 inch tires and the 32x4 1/2 inch size will fit on 32x4 inch rims. The principle of the interchangeability of two tire sizes or the ability of two tire sizes of the same size of rim being this: That one of them must have an outside diameter one inch greater and a cross sectional diameter one-half inch greater than the other.

The Standard  
of the  
World

Every woman desires possession which will receive the approval of her associates.

This is particularly true in the case of her motor car. Gratifying, therefore, is the enthusiastic sanction accorded by her friends to her Cadillac.

Everywhere she hears that whole-hearted and unreserved praise which voices the esteem with which Cadillac is so universally regarded.

Strange, indeed, would it be if the woman who owns a Cadillac did not derive more than passing pleasure from such sincere and outspoken approval.

But added to this tribute to her judgment is another significant factor.

## The "USCO"

You Buy to-day Is a New-a Better-a Heavier

"USCO"

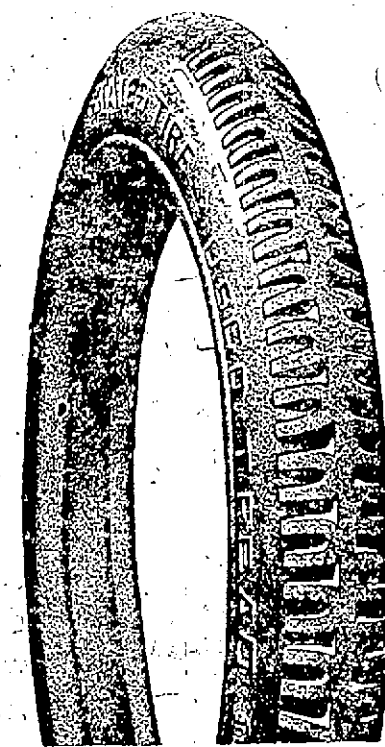

at the \$10.65 Price with No Tax added

Last spring at the \$10.90 price it seemed to motorists as if the 30x3 1/2 Clincher Tread USCO had reached the peak of tire value.

Yet the makers of USCO have now produced a still better USCO—a longer wearing tire with thicker tread, thicker side walls, better traction, longer service, more mileage. And the tax is absorbed by the manufacturer.

# Comparative Costs of Heating Water

## Graphic Chart of Comparative Costs

Independent Coal Heater **\$33.72**

Furnace Coil (when in use) **\$30.00**

Teakettle, Pots and Pans **??**

Humphrey Heater **\$18.00**

Average costs of heating water for six months by the commonly used methods for a family of from three to four people, under the given conditions described below for each method.

NO OTHER phase of water heating has received such unfair discussion and has been so little understood, as the comparative costs of the four methods of obtaining hot water in the average home today. While conditions, domestic demands, etc., affecting costs vary in practically every home and in every section, this page presents authentically under a given average condition, just what the public pays for each of the four ways. It is purposely offered in simple form, devoid of involved statistics, so that it can be easily understood by the public.

## Independent Coal Heater

**\$33.72**

Per 6 months

This method of heating water, independent of furnace, or when furnace is not going, is excessively high. Hundreds of folks who should know have heretofore believed that the coal heater was the cheapest way out of it. But just plain figures will prove this fallacy. Figure low—say one scuttle a day of coal, or 25 pounds, on a given basis of coal at \$15 a ton—means 18½¢ a day or \$5.62 a month. This totals \$33.72 for six months—plus the dirt, ashes, muss and fuss of tending the fire.

## The Teakettle Method

**??**

The cost of the old traditional teakettle, pots-and-pans method has been a bugaboo since the beginning of homes. Even to this day people find themselves standing over the gas stove, waiting tediously to heat water for the constant domestic uses. It's drudge all day for mother, needless steps, never enough hot water, the same burden day after day. The old teakettle method seems cheap, but the cost it entails in human sacrifice cannot be estimated in dollars and cents.

## The Furnace Coil

**\$30.00**

Per 6 months

The furnace coil, many folks think, heats water free. The truth is it is not much better than the coal heater. Engineers of authority, one of whom is cited below, prove that a furnace coil consumes one-fifth of the coal for heating the water—a direct heat loss of 20%. Figured on a given basis of coal at \$15 a ton, a winter's supply of say 10 tons means a cost of \$30 for the six months in winter when the furnace is going. And then the service is uncertain, inadequate. Add to this the cost of getting hot water with coal in summer and your fuel bill doubles.

Edwin Newsome, A. S. S. E., editor of the Sanitary & Heating Journal says: "I could go on citing case after case where the domestic coil has resulted in as high a heat loss as 20% of a furnace."

## The Humphrey Way

**\$18.00**

Per 6 months

On the same conservative basis as the average home is calculated for the furnace coal, coil heater, etc., let us estimate what this home would get for its money with a Humphrey Automatic Gas Water Heater in suitable size. Let us assume an average figure gas rate of \$1.75 per thousand cubic feet at which figure it was proved that you get a fair day's average of 50 gallons for 9c. This means 1500 gallons of steaming, faucet-drawn hot water per month for \$8, or \$18 for the same period of six months, in winter or summer, plus the priceless value of instant service when wanted. Always ready, day or night, at the turn of a faucet in any part of the house.

## Learn About Janesville Products From Actual Use, Not From Hearsay

Try to analyze the reason or reasons for your buying  
a dozen of the leading articles you consume, articles with  
trade names. For instance, why do you use a certain  
brand of flour, a particular make of shortening, etc., etc.?  
If the brands of goods you are using are made out of  
Janesville, have you given the local brand a fair trial? If  
someone, for instance, should say to you, "How do you  
like Blank's coffee?" and Blank's coffee happened to be  
made in Janesville, what sort of an answer would you hon-  
estly be compelled to make? Would you say, "Why-er-er-  
let me see-er-I believe that is made in Janesville, isn't  
it?"—but really-er-you know-er-I have never tried it.  
Start now and learn about every article made in Janes-  
ville—your home town—learn about all of them by trial,  
not from hear-say. Get the booster spirit. Be able to deliv-  
er a lecture, heartfelt, about Janesville and her prod-  
ucts.

# JANESVILLE TO HAVE WONDER COMMUNITY CENTER IN NEW SCHOOL

Were any one to come to Janesville declaring that by mere arrangement of brick, stone, mortar, wood and other materials, he could so influence the minds and habits of the youth in their "teens" that the community life would be a level higher a decade from now, people would tap their heads and smile.

Yet, it is to be done.

Such a proposition has been in the making here for the past 13 and a half months.

The idea has risen slowly. It is rising slowly. Some day it will be a reality.

It IS THE new high school—a building greater than any other of its kind in Wisconsin, surpassing many in cities far larger.

The state superintendent of schools, many others who have viewed it in the crude state, have been astonished by its pretentiousness, its completeness and its modernness.

There is more to the structure than the admiration its exterior beauty incites. A plunge into the interior, even in its present unfinished state, sets the vision of the practical theorist afire.

Janesville's new high school will be more than a preparatory institution for college work. It will be a finishing place to fit boys and girls for the step into that abyss of life wherein they must battle for themselves.

It will be a place for the further advanced than some colleges 25 years ago. To the end and loss of junior high school age, it will be a place for exploration whereby they find their own way to the life which is before them.

A pile of brick, a maze of uncompleted rooms now, several years hence the structure will be the central place around which the community life of Janesville will revolve. Its magnificent auditorium seating 1,600 with a stage larger than that of any theater in the city will provide for conventions, entertainments and large public gatherings. Its spacious cafeteria seating 400 will accommodate the biggest banquets. Its athletic field, 400x550 feet, will be open for public use for sports and, later, it is contemplated "bowling" is projected, will be the Bower city's gathering place for huge outdoor festivities. Its two gymnasiums and two swimming pools, according to contemplation, shall be for public use. The home economics department's dining room will be available to women's clubs.

A Civic Center

After landscape artists have magically transformed bare patches of surrounding ground into spots of flourishing greenness, the city will have a civic center that will arouse its pride. This will be further accentuated by an addition to the original scheme—to build a river road from Court street to Racine street. If that is done, there at the helm predict it will be the first link in a highway along the banks of Rock river, a parking system that will emphasize the natural beauty of the stream.

While an inspection of the unfinished school was being made recently, a layman, stirred by the marvels he had seen, was led to ask this question:

"Why, this is so wonderful, how will you be able to get rid of the boys and girls at graduation?"

Going on a Trip

If the reader will come with the reporter, he will take the same trip, see the same things, and perhaps, he, too, will grasp the enthusiasm. The journey will start at South Main street through the basement, wind through the first and second floors, and conclude in the third story. The reader will look at the rooms as they appear at their present stage and will halt in each for an imaginative picture of what they are to be. He will be impressed by the minutest details which have been thought out for convenience, completeness, sanitation and harmony in interior architecture.

Strolling south on Main street, the postman finds an open plot of ground extending 550 feet on Main street and running back 400 feet to the river bank. Upon this ground there are now several houses in process of demolition, rubbish dumps, holes that were formerly cellars of dwellings and the shacks and materials of contractors, not to forget a wild growth of weeds. This is the site of the athletic field to provide for baseball, football, tennis and track. If hopes are realized for the acquisition of additional land to the north, some day may see a diamond, a gridiron, a cinder path and a bowl at this location for joint use of the high school and the city. Likewise, there are visions of building a shell-like sounding board and stage flanking the river, some time. At present, for concerts and outdoor plays.

Enter on North Side

We shall enter the building on the north side by way of the swimming pools. This is done to show the easy access to the bath from the gymnasium. It is the plan of administration that when warm days come, boys and girls shall not perform their "gym" work indoors, but shall be taken onto the field. Physical training at the high school will be combined with the old type of machine-like exercises.

It is to be in the form of recreation. Group work and games, exciting competition, will be instituted with a view to interest the student along the lines of pleasurable play and to away with monotony and grind.

Eventually, the river will be used. It is not a wild guess, that not very many years from now, the high school may have a shell and crew racing be instituted. Some are not adverse to saying so. The river is at the door of the school.

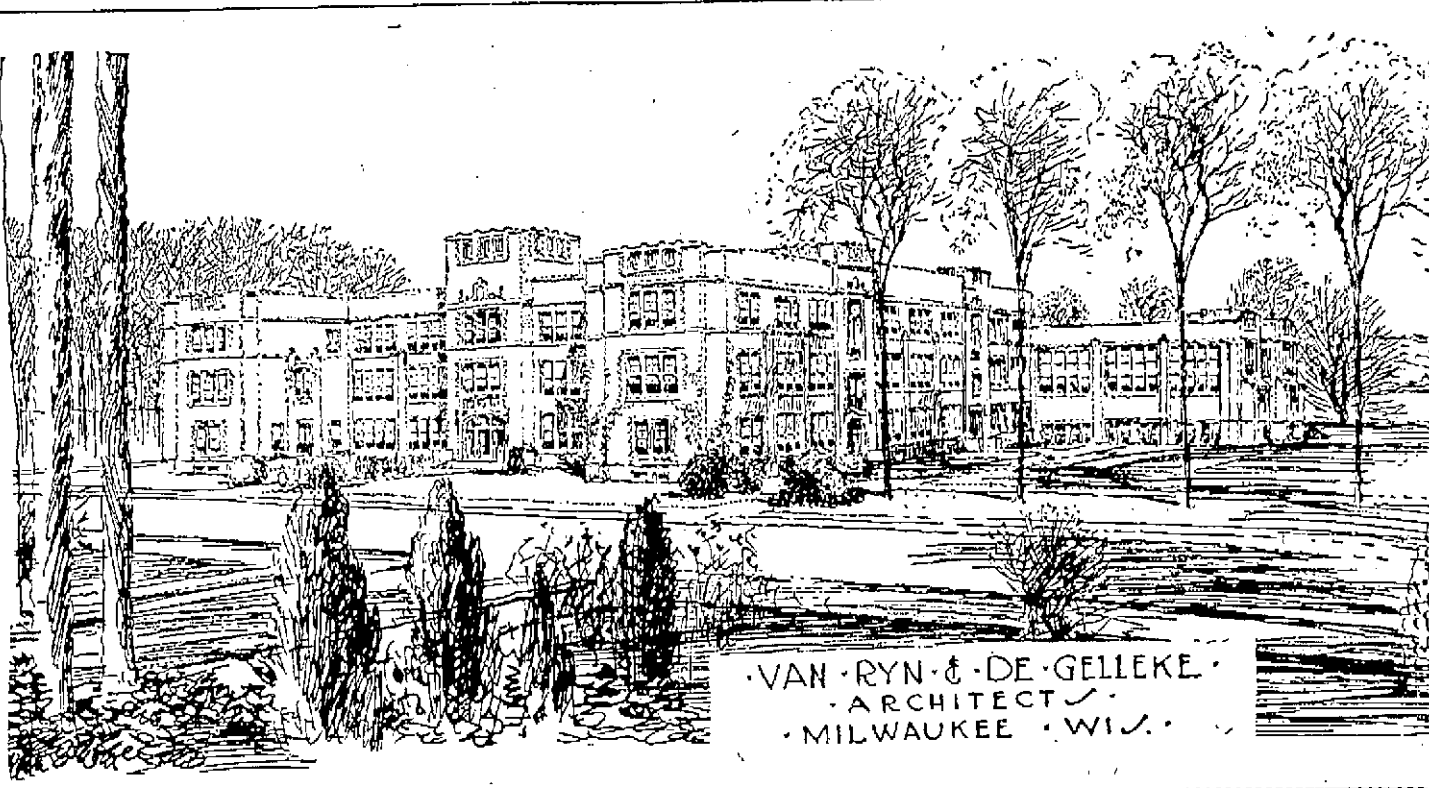

In the Gymnasium

Going into the boys' side of the pool, the first place encountered is a dressing room which is to be used exclusively for visiting teams and athletes. Right off it is the boys' locker room with showers and toilets. This will be equipped with the latest fixtures and its side walls are to be of a brown brick with a marble upper side-wall in keeping with a policy to inject beauty into every corner of the structure. At present, the room has but a small portion of the brick in place, the floor has not been started and some work has been done on erecting partitions. First and it might be said, in passing, that the plumbers and electricians are right behind the heels of the construction men throughout the building.

Ready for Fitting

Passing into the pool room, the walls for two pools, each 20 feet wide, 60 feet long and varying from three to eight feet in depth are awaiting tiling. One pool is for boys and the other for girls. The separating wall has not yet been built. For the first year of operation, the water in these pools will be changed twice a week. Later it will be filtered, making it necessary to change only once every few months. A chemical preparation to be used to cleanse the water. The walls are to be of tile, as will the floors, none of which has yet been done. The ceiling has not been touched.

## HOW THE HIGH SCHOOL WILL LOOK WHEN COMPLETED

VAN RYN & DE GELIEKE ARCHITECTS MILWAUKEE WIS.

Instructed in the composition and uses of cement.

Vocational Work

The vocational department will consist of three rooms, two containing machines and the third constituting the finishing room.

There will be a machine shop, a sheet metal shop and a forge shop. Directly off the forge shop, will be the bottom of the elevator shaft, although the elevator is not to be installed during the first year of operation.

Then comes another surprise—the auto mechanics shop. This will be equipped as thoroughly as a garage with an inclined entrance permitting the bringing in of automobiles and a runway to teach operation.

The wash room for the embryo mechanics will be equipped with huge circular terrazzo wash basins. Jets of running water will surround them, and liquid soap is to be punched from a supply well.

Rest Room for Teachers

Proceeding around the main floor, we come to the rest room suite for women teachers, which consists of a first aid room. This is to be tastefully furnished. As yet they are only partitioned off.

Now we enter the rooms of the home economics department, all of which need floors, side walls and ceilings. There are to be two sewing rooms, each with a fitting room adjoining. Typical of the appointments of the building, the ironing boards here fold back flush with the wall and cannot be closed until the iron has been placed in first, while the iron cannot be put in until disconnected in order to prevent fire. These rooms, like all others, are to have the most modern appliances.

A Dining Room

Next is the dining room, 24x25 feet, with place for a built-in buffet and arched doorways. This room is to be beautifully furnished, so much so that expectations are that the women's clubs of the city will make use of it. The adjoining room is a model kitchen for senior high girls.

Then comes a first aid room for girls.

Off of this is the senior high school kitchen. This will have six unit kitchen, consisting of range, buffet and serving table. There are to be five gas ranges and one electric with receptacles for connecting every form of modern electric kitchen appliances. The office of the head of the department is next in line and then comes the junior high school kitchen, more simple than that of the senior high school.

On the west or rear corridor are the entrances to the stage and two dressing rooms, one for boys and one for girls. Then there are two sewing rooms with fitting rooms.

Work is Advanced

We are ready now to go to the second floor. There we will find all rooms much further advanced with floors being laid, side walls and ceiling plastered and the woodwork being put in. All floors are of narrow maple. It is on this floor that the first concrete idea of the completed building is had.

This floor is given over to study halls, the library, music room and recreation room. A noteworthy feature in these rooms, as in all class rooms, is a rolling blackboard upon which the teacher may write notices and then move it up out of the way. The library will seat 38. The side walls are finished and plasterers are at work on the ornamental work of the ceiling. There is an office at the right and a conference room.

For Real Education

Mounting to the third floor, the first concrete view into the completed structure is had. This floor has but a few minor details, such as fitting of doors and blackboards and installation of lighting fixtures and telephones—each room is to have a phone—yet to be done. Workmen are completing terrazzo corridors.

The third floor is to be devoted to commerce, science and art. The first rooms entered are those to be used for bookkeeping and typewriting. Then comes a surprise—two studios for commercial art. The ceilings of these rooms have skylights after the finest art rooms, providing perfect daylight through prismatic glass.

We come now to the biology laboratory with steps leading to a room to be utilized as a conservatory for growing plants. The floor in this room has yet to be laid, having been delayed because materials are being hauled through it.

There are six recreation rooms on the third floor.

Agricultural Department

The agricultural department will be most completely equipped, and

which, by the way, are to be given greatest encouragement.

In the Study Rooms

Entrance to the balcony is had from the second floor. There will be alternate seats with tablet arms for study, the overhead light giving pupils perfect ease on the eyes.

On this floor is one large study hall with movable partition. This room may be made into class rooms if necessary. It might be mentioned that all rooms in the building are so arranged that in the event of a change of school officials, the new men may adapt the building to any different ideas they may have.

The Music Room

The music room is on the second floor, having a harmony room in connection. By inclusion of this department in the general plan, Janesville high school students will get the first substantial lessons in music in the history of the city. It is believed by observers that this will eventually have a telling effect in creating a greater appreciation of better music. It is the vision of those who planned the building that in fact, it may be possible to teach any instrument in this department. There is to be a raised platform in the music room for the piano. The chairs will be of the movable, folding type so the floor may be cleared and this room used for club dances where few are to entertain. Instead of using the gymnasium, which will be available for all school dances. In fact, it is desired that the school life of the student body be held in the building. In addition to making use of the music room for choral work, it will be at the disposal of the public. The music room is ready for furniture.

The last room on the second floor is a rest room for men with toilet and wardrobe.

like biology, will have its own plant room. This suite includes also a storage room and a laboratory. The "aggies" will have an additional storeroom in the basement.

Then we come to the chemistry workshop. As in all the science rooms, this will have a fume hood to carry off noxious gases. Next to the workshop is the chemistry laboratory. It will have a large demonstration table and four smaller ones, each accommodating eight scholars. The plumbers are at work putting in the large amount of pipes for this room and, therefore, the floor has not been laid. The same is true of the general science laboratory, of the physics laboratory, both connecting with the chemistry "lab." The general science laboratory will be for combined use of the science department.

A Symmetrical Building

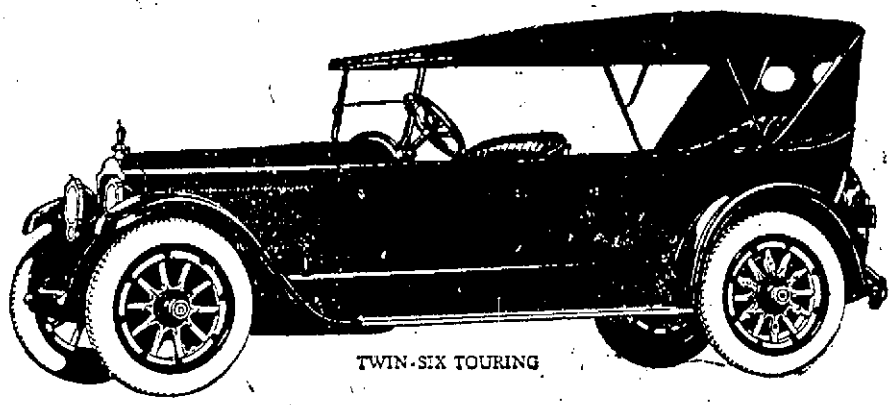

In order to make the building symmetrical, the front walls were carried to the roof over the fireproof stairways. There was to have been a blank space left in these in the original plans, but in keeping with space saving practices, two small office rooms have been constructed at the end of the stairs. One of these consists of two air courts on the north and south sides lined with white brick.

Workmen are finishing the doors on this floor—beautiful examples of cabinet work.

We have now made the rounds. As a last step, we take a glimpse out of the windows and as we glance over the city and the beautiful suburbs, we wonder if the citizens appreciate the new institution that belongs to them. When the new school is opened, 1,200 students will march into a structure planned for 1,500.

Don't forget to take your Kodak with you tomorrow.

—Advertisement.

TWIN-SIX TOURING

There is nothing in all the generality of motoring with which to compare or measure the Twin-Six quality of motoring.

It is a thing apart and above—and it is distinct and individual to the Twin-Six.

There is no substitute for it, once it has been experienced; and it is not to be duplicated outside of the Twin-Six itself.

# INTRIGUE CAUSE OF TURKISH "MESS"

Returned Y Worker in White-water Not Surprised at Sudden Catastrophe.

**SPECIAL TO THE GAZETTE**  
White-water—Arthur K. Povelson, Y. M. C. A. worker, who recently returned from Smyrna, accompanied by his wife and two babies, views with concern but no surprise the desperate situation in the Near East.

Interviewed by the Gazette correspondent, he said: "The newspaper reports of the last two weeks have contained news of vital importance, not only concerning my friends who are carrying on relief work in smoldering Smyrna, but the 300,000 Christians in Anatolia who most needs education or suffer untold hardships and death."

"The allied governments of Europe, while playing their unlovely game of politics, rooted in the desire to find a solution in a hotbed of intrigue, while countless thousands have been, and shall be suffering under its death. America cannot afford to stand off to the execution of the end of these political manoeuvres."

**Chances Still Exist**

"We American people in the past have contributed enormously in the Near East—to what? To the relief of the suffering. But few measures have been taken to remove the cause of the suffering. The cause has been the many thousands of dollars already invested in the American mission colleges, the not result would have been more satisfactory. Think of it. Six million Americans a few years ago, now there may be 200,000,000. But what we can do, every one of us, is to learn the facts, not altogether from those commercially or politically interested, but those who have told us interestingly for 10, yes 30 years in the Near East. We should then register to our government our moral indignation and render our nation's moral support of what would be 'his will' to the contrary."

**Aggravative Greek Policy**

"At the close of the world war the allies themselves gave ambitious Greece a mandate for the Smyrna region for five years. Greece's policy was aggressive to the extent that instead of holding a 300 mile front, it took perhaps 300,000 soldiers to hold a 600 mile front of guerilla warfare against Kemal's increasing conscription army."

"It has been said after beatified in Smyrna bringing in Greece's military army, men conscripted from 19 to 40 years of age, most of them weary of nine years of warfare and wearing French, American and British uniforms. And after leaving Smyrna, July 5, many of them were not paid their 60 cents a month for two or three months. This, the 'Greece' spirit, especially after the existing government but the already bankrupt national wealth, in half by cutting every paper bill in two, as a kind of loan."

**Discussion Real Cause**

"It was not hard after our 22-day return voyage and thereafter to read between the lines, knowing that it was not so much the Turkish victory as disension and the retreat of the Greek army which ended in catastrophe."

"The men of the Y. M. C. A. are attempting with all too few others to administer relief. Had this disaster not fallen, it was good that the Y. M. C. A. would have been left in the hands as well as support of the native leaders, as is the policy of the American Y. M. C. A. post-work in Europe."

Mr. Povelson will speak at the Congregational church Sunday night.

## Two Women Win Divorce Decrees

Cruelty and desertion were used as grounds in two divorce cases heard before Judge George Grimm in circuit court here Thursday afternoon.

The court ordered the separation of Marie Marsden from William Arthur Marsden, both of Janesville, on the grounds of cruelty. They were married in Rockford in 1912. E. H. Ryan appeared for the plaintiff, who was given the right to resume her maiden name of Burns.

A divorce was ordered in the case of Alice McCarthy, Clinton, against William McCarthy, whereabouts unknown, on the grounds of desertion. They were married in Beloit in 1901 and separated in 1916. Fisher & Goff represented Mrs. McCarthy.

Several default actions were disposed of by Judge Grimm, as follows: Judgment, foreclosure to mortgagee and sale ordered in cases of W. L. Albright vs. H. E. Hermanson, and George H. Rumrill vs. Dennis Casey; judgment of partition of real estate in case of Myrtle Stewart vs. Harold Gower, and M. S. Mallin vs. Charles W. Melting.

Willard F. Reese won a \$97 judgment against Leslie A. Huwes.

## CLINTON

Clinton—The Norwegian Lutheran church of Bergen held a large picnic at the Old Ladies and Children's home, Monday, September 25. They enjoyed a picnic dinner with the inmates, and treated the children to candy, nuts and cracker jack.

A daughter was born Sunday to Dr. and Mrs. Carl B. Kitmann.

The W. R. C. will have an all day picnic with Mrs. Susan Latta Friday.

Mrs. Cornelia Milner accompanied her son John Milner and son-in-law Mr. Rodway as far as Oshkosh, leaving here Tuesday morning.

Mrs. John Milner, Mrs. Etta Wicks, Mrs. Carrie Swartz and Mrs. Carrie Dresser and Hazel Dunn motored to the Frances Willard school house Thursday afternoon to attend the county W. C. T. U. picnic.

Miss Louise Parker left Friday for Jacksonville, Fla., where she will teach the coming year.

Miss Carrie Perkins, Shoplifter is visiting Mrs. C. Kemmerer.

Mr. and Mrs. E. L. Johnson and family visited Monroe and other points Thursday.

Mrs. J. T. Kemmerer was in Janesville, Walter Gilbert, Vermont, is visiting relatives and friends here and was the guest of Mrs. John Milner and family Thursday night.

Mrs. M. F. Huff and Mrs. Geo. E. Hubbell went to Janesville, Thursday, to attend the county W. C. T. U. picnic at the Frances Willard school house.

Mrs. Julian J. left Friday for Dubuque, Ia., to visit friends.

## FORT ATKINSON

Fort Atkinson—The ladies society of the First Lutheran church gave a party Tuesday night in honor of Mrs. Theodore Beyer, president of the society who will leave in a short time to spend the winter in New York with her daughter, Mrs. Edward Livingston. About 50 women were present.

Mrs. H. A. Main is in Wausau this week representing the City Federation of Clubs at the State Federation convention.

Mr. and Mrs. T. B. Royce spent Friday in Milwaukee.

Miss Helen Converse, who is teaching in Beaver Dam, is spending a few days at her home here, her school being closed for the Beaver Dam fair.

Mrs. Oscar Milbrand, Milwaukee, has been a recent visitor at the home of her sister Mrs. Leo Hagen, from Palmyra, to take the degress.

Oscar Wernicke, Chicago, a former Fort resident, is visiting friends in the city.

Miss Marion Perry, who is teaching at Fox Lake, is spending a few days at her home here.

A meeting of the council of the Masonic fraternity of this city was held Friday night. Eighteen candidates for Palmyra, to take the degress.

Mrs. W. D. James entertained at bridge Friday afternoon. The following women were present: Mrs. H. H. Curtis, W. Cope, W. V. Cornish, A. B. Dunn, H. G. Casper, W. P. Haunerman, and George Caswell.

Mrs. George Stevens is reported as being seriously ill.

Miss Maude Walker, Milton Jet, has come here to take a position in the Better Sox Knitting Mills.

The residence on Sixth street now occupied by Dr. Will Young and family has been sold to W. Cope of the James Mfg. Co., possession to be given Nov. 1.

Mrs. Thora Bisset goes to Milwaukee Saturday to spend Sunday at the residence of Dr. Benjamin, a former pastor of the Methodist church here.

Much interest is taken here in the case of Ewald (Jumbo) Silem, the famous football coach. Mr. Silem whose residence is at Fort Atkinson, is a graduate of the Fort Atkinson high school and was once a member of its faculty. He has just been operated upon for gastric ulcers at the Mayo Brothers' hospital at Rochester, Minn. His condition is reported as serious.

Percy Ebbott, who occupies a responsible position in one of the large banks in New York city is visiting his parents, Mr. and Mrs. Harry Ebbott.

Thuro Krebs, the city interior decorator, is redecorating the First National Bank at Whitewater.

The superintendent of the Milwaukee Deaconess Hospital, Rev. R. B. How, will occupy the pulpit at the First Lutheran church Sunday.

Rev. Wm. J. Davies, a missionary in the northern woods of Wisconsin, will preach at the Congregational church, Sunday.

## JUDICIAL

John—Mr. and Mrs. Gilbert Al-jright motored to Monroe Wednesday—Mrs. Jacob Hegarty, Monroe, visited here Wednesday—Mrs. Susan Rodrick moved into her new home Wednesday—Edward Stiller, Janesville, was here Tuesday—Mr. and Mrs. William Nyman, Spring Valley, were in town Tuesday—Mr. and Mrs. Charles Sharp and family, Monroe, spent Wednesday night with the host's father, Ferdinand Miller, who is seriously ill—J. S. Caryat was in Monroe Tuesday—Mrs. J. M. Burns, Monroe, was a business caller here Wednesday—Mrs. J. S. Caryat went to Janesville Thursday to visit Mr. and Mrs. F. L. Mable—Mr. and Mrs. Ben Kollander and family motored to Brodhead Tuesday—Rev. Herbert Roseman will be home from his southern trip Sunday. He will occupy the pulpit at the Baptist church morning and evening.

U. picnic at the Frances Willard schoolhouse Thursday.

Rev. A. D. McKay was in Madison Friday.

Mr. and Mrs. F. W. McKinney went to Chicago Thursday morning.

Mr. and Mrs. Harvey Christman spent Sunday at Deloit with their son and family.

Private teacher's meeting was held at the City Hall Wednesday night.

The different departments of the school observed Frances Willard birthday Thursday. Mrs. A. D. McKay giving a fine address in the grammar room, which is in charge of Miss Adelaide Plack.

# Gazette Good Times Club

FOR ALL SCHOOL BOYS AND GIRLS

HAVE YOU JOINED GAZETTE GOOD TIMES CLUB?

Have you joined the Gazette Good Times club? We have enrolled 46 members since our first announcement a week ago. All but two of these are rural school pupils. Boys and girls in Janesville and other cities and those living in villages as well as country children are eligible to membership in the Good Times club and will receive many worth while benefits from the club.

One of the goals for the rural school division of the Good Times club is a 100 per cent membership enrollment in every rural school in Rock county. Rural schools in other counties of southern Wisconsin are also invited to send in a 100 per cent enrollment and those doing so will receive the same advantages along recreation lines and other lines that will be given to Rock county schools.

Two 100 Per Cent Schools

We now have two 100 per cent Good Times club schools in Rock county, memberships for all of the pupils in the Hubbell and Bagle schools in the town of Fulton having been received by the Gazette.

Miss Alice Finnan is the live teacher of the Hubbell school, where the following pupils have become members of the Good Times club: Mabel Albrecht, Vera Brown, Catherine Farrington, Clara Farrington, Blanch Griffin, Jean Brown, Frank Burkhimer, Daniel O'Neil, Clair Viney, Donald Viney, Gertrude Albrecht, Clayton Brown, Warren Brown, Florence Burkhimer, Mildred Griffin.

Miss Marie Fox is beginning her seventh year as teacher of the Bagle school and this continued service makes her the community factor which every rural teacher, who loves her work, may become. Each of the following 26 pupils in the Bagle school have joined the Good Times club: Meta Zwick, Margaret Zwick, George Boss, Edwin Berges, Eva Galsauer, Peter Galsauer, Mary Galsauer, Stephen Galsauer, Tillie Janssen, Clarence Listol, Torie Listol, Manfred Johnson, Herman Shultz, Isabel Shultz, Lawrence Shultz, Malcolm Shultz, Arthur Johnson, Inga Listol.

Eleven enrollments have been received from the Indian Ford school. Because of a misunderstanding, four pupils whose parents do not take the Gazette, were not enrolled. However, as membership in the Good Times club is open to all boys and girls, this school will doubtless win a place on the 100 per cent list by next Saturday. The teacher, Miss Rachel Moore, is much interested in the club plans and has arranged to

have a copy of the Gazette sent to the school, so that note of the club news will be missed. While boys and girls, whose parents are not Gazette subscribers, may join the club, only those who have the Gazette in their homes will be able to keep posted about the club plans and activities.

Robert Puck of Clinton and Morris Davis of route 4, Janesville, have sent in their club membership coupons. Robert attends the Clinton school and Morris comes to the Lincoln school in Janesville.

WHAT DO YOU KNOW ABOUT BOXCRAFT?

Making all sorts of things out of cardboard boxes is one of the most entertaining pastimes that boys and girls can enjoy. The material required is found in every home or can be obtained for a few cents at most. Card board boxes, paste, scissors, crayons or water color paints, a ruler and a pencil are the materials used. Among the things that may be made are houses, stores, doll furniture, animals, savings bank, toys and games. Nearly all public libraries and some school libraries have books on boxcraft that give complete directions for making the articles. If you can't get such a book from a library near you, the Gazette will help you borrow one from the Free Library Commission, or send you typewritten directions for making one or more boxcraft articles. Boy and girl readers are invited to write letters to the Good Times Club telling about boxcraft articles that you know how to make.

# News Stories, Romance and Reality Are Told Here in Pictures

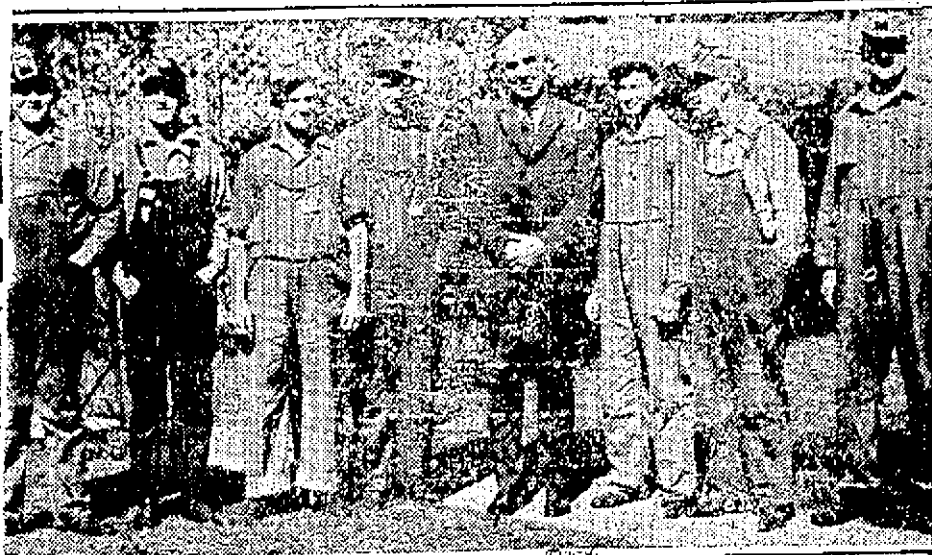

Above, Vice Admiral Sir Osmond Brock. Below, Lieut. Gen. Sir Charles Harrington.

Kemalist Turks have heeded the warning of Britain's military and naval chiefs, Gen. Sir Charles T. Harrington and Vice Admiral Sir Osmond Brock, at Constantinople and have retired from the so-called neutral zone along the Dardanelles.

Miss Miriam Burns.

Miss Miriam Burns, Kansas City, had little difficulty winning the Missouri state women's title and, according to the gallery, could win a beauty prize just as easily.

President Harding thanking miners for concert on White House lawn.

Commander and Mrs. Louis L. Pilcher, photographed at Des Moines.

Commander Louis L. Pilcher, at the G. A. R. encampment at Des Moines, Ia., declared that a new and better bonus bill will be passed before long. Pilcher pointed out that it was twenty years after the Civil war before the veterans began receiving pensions.

Dorothy, 16 months' old daughter of the battering Babe, and Mrs. Ruth.

A question in heredity—why is a miniature bat the favorite toy of Dorothy Ruth, sixteen-month-old daughter of Babe and Mrs. Ruth? You guessed it; go to the head of the class.

Richard "Dick" Mulcahy.

Richard Mulcahy has just been named to succeed the late Michael Collins as commander-in-chief of the Irish Free State army.

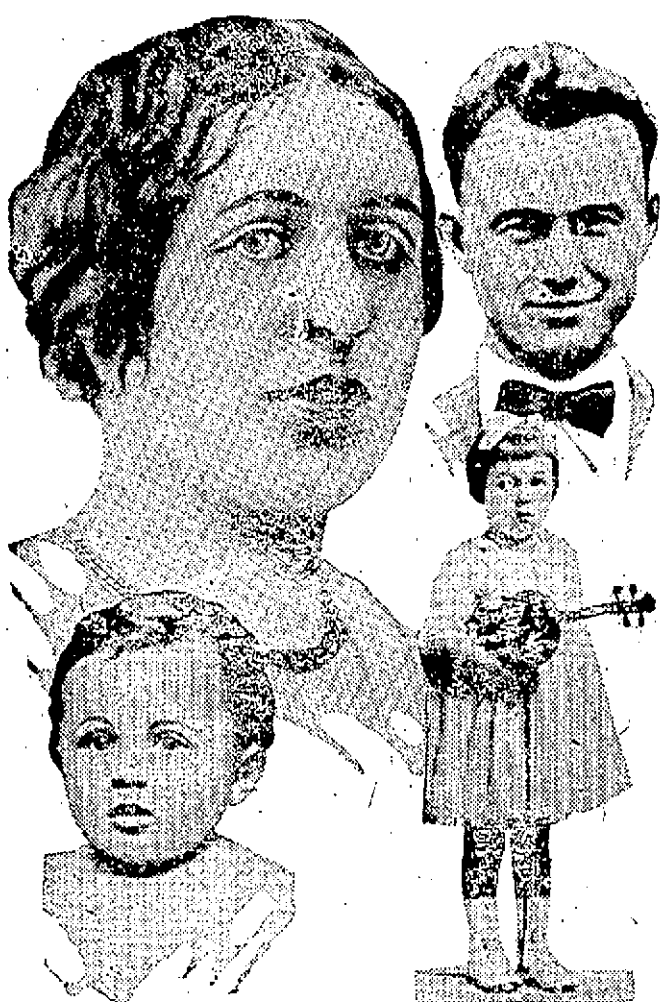

Mrs. Maude Gonne McBride.

Mrs. Maude Gonne McBride was expelled from the "Strangers' Gallery" of the Irish parliament for protesting the treatment of untried prisoners while in jail.

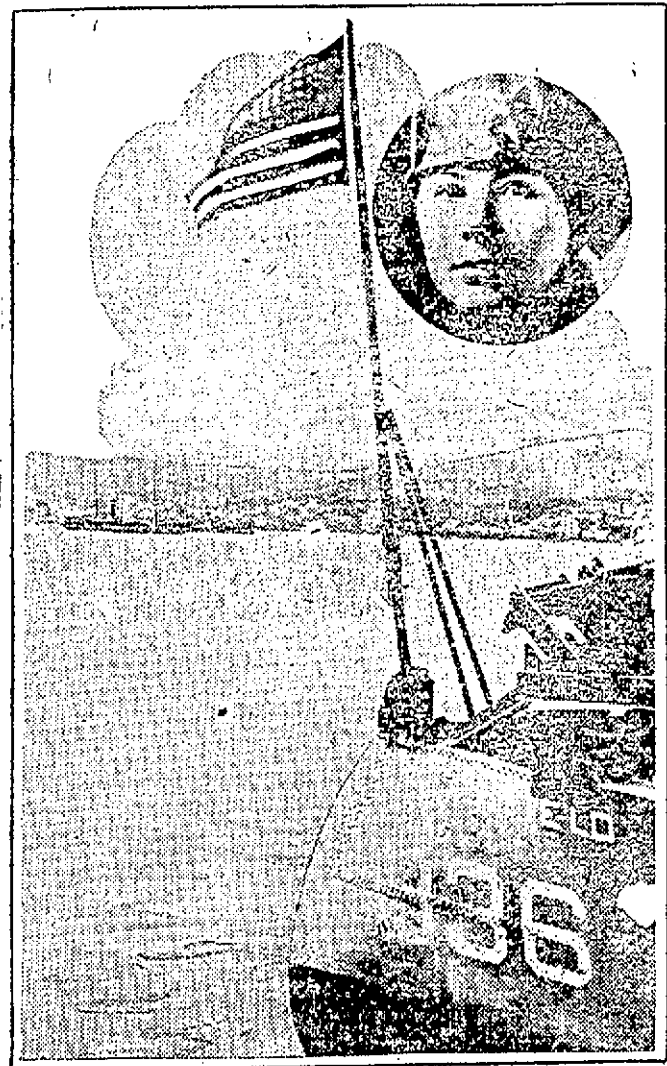

The basque remains and its charming when combined with bouffant hips and a full skirt. This tulle frock is ideal for the college girl's first dances. It is yellow tulle trimmed with amber beading made in one of the simple basque styles.

Left, Mrs. Bessie Brehms; upper right, William Brennan; lower right, Edith, and (inset) Baby Irene.

Mrs. Bessie Brehms made a five thousand mile journey to the United States from Prague, Czechoslovakia, to join her husband who had come to America in 1920. When she arrived in Wheeling, W. Va., with her two children, Edith and Irene, she found her husband living with two women and was greeted with scorn instead of affection. Brehms now is being held to face abandonment charges.

Destroyer Litchfield entering Smyrna harbor and, inset, Dr. Esther Lovejoy, directing medical relief work in the stricken city.

The U. S. navy department has ordered every available warship in European waters to the near east trouble center to rescue refugees and protect American nationals. Rear Admiral Mark L. Bristol is in command. Dr. Esther Lovejoy is in Smyrna directing the medical relief work.

Miss Katherine Agar.

"People misrepresent the typical athletic girl," says Miss Katherine Agar, one of the U. S. girls who starred in the recent women's Olympic meet in Paris. "She is not masculine and -ish," declares Miss Agar. "She is just a cool sport who knows how to take a bump or a victory."

Dr. Mary Mills Patrick.

Dr. Mary Mills Patrick, president of the women's college in Constantinople, will be one of the prominent American residents in that city who will be in danger if the Turks attempt to capture the city.

Miss Maude Wayne.

Miss Maude Wayne has a remarkable costume, but she doesn't wear it often. It's made solely of pearl and jet beads. Oh, yes, it's very artistic.

Barbara Bedford.

Barbara Bedford, film actress, is now honeymooning in New York with her "Prince Charming," Albert Roscoe. They were married secretly at Hollywood.

Above, left to right: Lady Decies, nee Vivien Gould; Prin Anastasia, formerly Mrs. William B. Leeds; Lady Ribblesdale, formerly Ava Willing Astor. Center, Mrs. Jacques Balsan, nee Consuelo Vanderbilt; Duchess of Roxburghe, May Goelet. Below: Princess Boncompagni, formerly Margaret Draper; Countess Szechenyi, Gladys Vanderbilt, and the Duchess of Marlborough, Gladys Deacon.

Thousands of American women will regain citizenship rights lost by foreign marriage, if the equal rights bill is signed by President Harding. The bill provides that "the right of any woman to become a naturalized citizen of the United States shall not be denied or abridged because of her sex or because she is a married woman. The law will affect approximately 5,000 women, including 165 'titled Americans.' This law makes it possible for an American to become queen of Greece.

# FIRE PREVENTION--CLEAN-UP-PAINT-UP WEEK

## OCTOBER 2nd to OCTOBER 9th

**LET ELECTRICITY  
DO YOUR WORK!!**

## CLEAN-UP

means a great amount of hard work around the home. An efficient ELECTRIC WASHING MACHINE will wash your rugs, curtains, blankets, etc., with equal ease and

An efficient ELECTRIC VACUUM SWEEPER will thoroughly clean all of your rugs, carpets, upholstery, mattresses, etc.

Ask us to demonstrate and "use while paying" plan.

**ELECTRIFY NOW!**

**Janesville Electric Co.**

Buy Electrical Goods at Electrical Stores.  
Phone 2907. Cor. River & Milwaukee Sts.

## Clean Up Paint Up

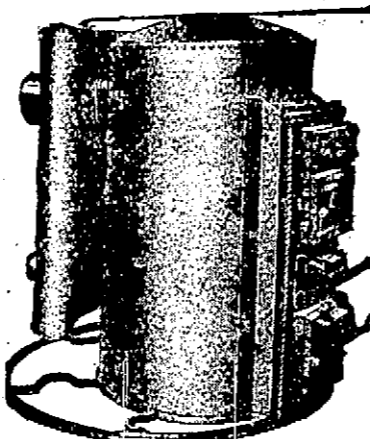

*The People Who Have Used Rogers Paints are the Best Boosters We Have*

Use it once you will come back for more. Covers one-third more surface than ordinary paints. We have handled this line for 13 years and have not had a complaint in that time.

Now is a good time to paint. We have a good stock of house paint in twenty colors, also outside white. Varnishes and inside paint to suit every need around the home.

**Douglas Hardware Company**  
15 S. River St.

## Torrid Zone Furnaces

Why buy a dirty gas leaking furnace?

Why buy a furnace that you have to take all to pieces to put in a fire pot or any repair?

Why buy a furnace that keeps you poor buying coal to keep it hot?

This you will find with any cast iron furnace.

Torrid Zone furnaces cost you no more and they are gas and dust-proof; any repair will go through the feed door without taking it down. Any steel furnace gives more heat from your coal than any cast.

Look at the factory guarantee:

1st—The average life of a Torrid Zone has been 21 years in the past.

2nd—If any part of a Torrid Zone furnace gives out in 5 years it will be repaired FREE of charge.

3rd—If any part of a Torrid Zone furnace gives out in 10 years it will be repaired at half price.

Grates are the only part excepted from this guarantee. Let us figure your furnace job.

**WOOD HARDWARE CO.**

## HAVE YOUR WINTER GARMENTS DRY CLEANED OR DYED NOW

No matter how careful you have been in protecting your garments, a great deal of dust is sure to have seeped through and harmed them.

The only SAFE WAY to make sure that your garments are absolutely clean, free from moths, and sanitary, is to have them DRY CLEANED BY OUR "NO-ODOR" METHODS. In this way every particle of dirt is removed, and the freshness of the garments brought back again.

We clean Ladies' and Gents' Suits, Coats, Dresses, Waists, Hats, Caps, Plush Coats, Moleskin or Sheepskin Coats, in fact most any Garment or House Furnishing, including Rugs.

## HAVE YOUR WINTER COAT DYED

It will give you another season's wear at only small cost. You'll be economizing by doing so. We'll gladly advise you regarding anything to be dyed.

Just call 471. Our delivery service is free, and we guarantee quick service.

## BADGER DYE WORKS

KERSTEL & KARBURG  
24 N. Franklin St. Phone 471.  
"SPECIAL ATTENTION GIVEN MAIL ORDERS"

## Are You Playing Ostrich?

You know that wood rots and metal rusts if not properly cared for. You know that the wood and metal on your house meet all kinds of weather and that rust and decay are constantly at work. You know this even if you cannot see it. Better take steps to offset these troubles. Clean Up and Paint Up before repair bills cost you more. B. P. S. Paints, Varnishes and Auto Enamels.

## Hamilton Beach Vacuum Sweeper

Cleans the Entire House—Phone us. We demonstrate in your home FREE. No obligation.

A really great cleaner and why—There are other cleaners that have a beating brush. There are other cleaners that have strong suction. But only the Hamilton Beach has both.

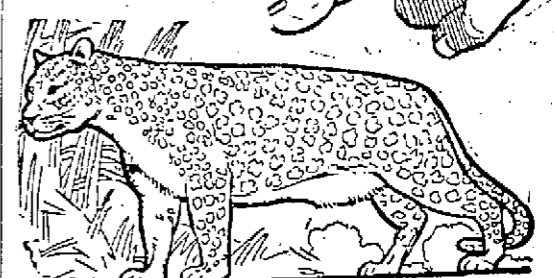

Hence it unites in one machine all the cleaning advantages of both these good types and besides gives double efficiency—it is so substantially constructed that it is unqualifiedly guaranteed.

A small deposit and a little each week makes it yours.

**Get Ready for the Indoor Months**

## We Remove The Spots

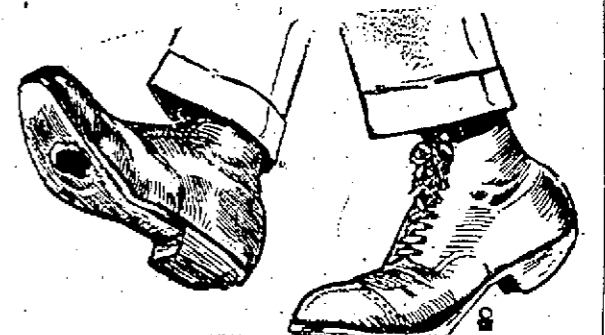

## WE'RE READY FOR YOUR FALL CLEANING

## Fire Prevention Note

Send us your summer clothing to be properly cleaned before you put them away for the season, or send your winter suits, dresses or coats to be renewed and put in first class condition for this season's wear.

Our cleaning department takes care of your work quickly and efficiently. Each garment is cleaned individually.

Fire Chiefs from everywhere sound the warning to beware of gasolene, kerosene and other cleaners and their use in the home. Better play safe and send your cleaning to professionals trained in the business.

## We'll SAVE Them

Round-up all the shoes in your house during fall cleaning. You'll probably find that there are quite a few pair that with just a little repairing would give months more of service. Bring them to our shoe repair Dept. We use the very best leathers, rubber heels and other materials in our repairs. Our equipment is first-class and our repair men have years of practical experience behind them. Our prices are right.
